

RippleLab Daily Progress Report

Day: XX of 30

Date: YYYY-MM-DD

Status: Complete / Partial / Blocked

Branch: codex/day-XX-topic

Commit: SHA or Not pushed

CI: Passed / Failed / Not run

1. Objective

State the day's intended user-visible outcome in one paragraph.

2. Acceptance Criteria

- ☐ Criterion one.
- ☐ Criterion two.
- ☐ Criterion three.

Unmet criteria must remain unchecked and be explained under Risks and Blockers.

3. Completed Work

Describe what a user can now do. Separate completed behavior from prototypes, placeholders or future work.

4. Technical Implementation

Summarize architecture, API, database, UI and infrastructure changes. Include important file paths and migration identifiers.

5. Calculations, Assumptions and Evidence

List formulas, units, rounding rules, confidence changes, source records and dates added or changed. Write "No calculation changes" when applicable.

6. Verification Evidence

Check	Command or method	Result
Unit tests	command	Passed / Failed / Not run
Type-check	command	Passed / Failed / Not run
Lint	command	Passed / Failed / Not run
Production build	command	Passed / Failed / Not run
Manual review	Flow/device reviewed	Passed / Issues found

Record actual results. Never mark a check passed based only on expectation.

7. Files Changed

- path/to/file - reason for change.

8. Visual Proof

Add screenshots, diagrams or chart captures when they materially demonstrate the outcome. Otherwise write "Not applicable."

9. Security, Privacy and Accessibility

Record relevant checks, new data handling, permissions, log content, keyboard behavior, contrast or other concerns. Write "No material change" when applicable.

10. Decisions

- Decision, reason and consequence.

11. Risks and Blockers

- Risk/blocker, impact, owner and intended resolution date.

12. GitHub Publication

- Commit message:
- Commit SHA:
- Remote branch:
- Pull request:
- CI URL/status:

Use "Not pushed" if publication did not occur.

13. Next Day

State the exact next objective, prerequisites and acceptance criteria.
